

External Grant Reviewer Login and Evaluation Instructions

(Reviewer without University of Nebraska login credentials)

1. After clicking on the “Yes” link in your email to indicate your willingness to review, your web browser will take you to a screen like this:

Please fill in the information below to continue to your account.

Email	davit
First name	<input type="text" value="David S."/>
Last name	<input type="text" value="Jackson"/>
Create a password	<input type="password"/>
Confirm password	<input type="password"/>
<input type="submit" value="Submit"/>	

Create a password (that you will remember!), confirm (retype) the password, and click on the ‘Submit’ button.

[We **strongly suggest** you save your email because you can use the “Yes” link to return to the proposal you are reviewing. After the first login, however, you also may enter the site by going directly to <https://grants-awards.nebraska.edu/> and clicking on the “Sign In” green button on the right side under “External Reviewers, Applicants, and Recommenders.” Enter your email address and the password created above to resume your review.]

2. After login you should come to a screen like this:

Faculty Grants Reviewer Scoresheet

Please score the application on each of the listed criteria. To the extent appropriate, please make comments on each of the scoring criteria.

There is a maximum of 40 points that can be assigned to the application. Score each question using the dropdown score list.

Higher point values represent better alignment to the criteria listed.

The context for the review should be "...the potential for the team to ultimately receive extramural funding for the stated research question(s)."

[A copy of the RFA can be downloaded via this link: [2017-2018 System Science RFA](#).]

Research Significance, Innovation and Impact (max. 10 points):

[This section is in reference to what the PIs would propose to an external funding agency.]

Does the application describe the significance of addressing the long-term research goals outlined (solves or addresses a scientific problem and/or helps meet an educational/societal need), identifies why the team's work plan represents a conceptual innovation and/or an innovative approach, and articulates how anticipated achievements will lead to a societal benefit/broader impact.

Comments on the long-term research goals:
